# Introduction

The Local Impact Assessment will help organisations to identify the impact they have on their community. The questions will focus attention on key areas of activity for Public Service Delivery (e.g. activity involving such groups as lone parents, BME and NEET). Often, faith-based organisations have a greater role in bringing different parts of the community together than they are able to demonstrate. As you answer the questions, make a note of how your organisation provides opportunities for different people to come together and thus contribute to community cohesion.

Faith-based organisations make an important contribution to their local communities through the human and physical resources they provide. Although the role of volunteers can be turned into a financial value, the true value of people who give of themselves to a community is very difficult to reduce to facts and figures.

### How to complete this Impact Assessment

Please complete this assessment as accurately as you can. You are welcome to use this assessment in your own organisation to measure your current situation and repeat again in a year to track your progress. It is designed to ask the questions that you will need to engage with as your organisation pursues public contracts.

# Part 1 - Financial Benefits to the Community

## **Physical Resources**

1) Name your organisation's physical resources and how often they are used by your particular faith community and the wider community.

A	В	С	D	E
Name of resource	How many hours used a week for your faith community?	How many hours a week used for the wider community?	Estimated value (Remember value of property has increased - in some areas by 35% over past 10 years)	Value of asset to the community $\left(\frac{C}{B+C}\right) \times D = E$
Fixed assets e.g. Buildings, rooms, halls, theatres. Please list below				
Moveable assets e.g. Mini-bus, vans, ICT. Please list below				

#### **Human Resources**

Those who help with the running of the organisation are all valuable to you, but their skills and activity would be priced differently.

2) Paid Staff
